## Rabbit's Nap

# Phonics

- This is for a young child to play with an adult and aims to promote the discussion of different sounds.
- At the top of the screen is a loudspeaker icon. At the bottom are pictures of three different animals. The child clicks on the loudspeaker icon to listen to an animal sound, guesses which of the three animals makes that sound and drags the picture of that animal onto the loudspeaker to see if their guess is correct.

(the activity takes 12 minutes so you can do it over 2 days if your child needs to split the session up)

# Mindfulness

BUBBLE BREATH

Enjoy a calming moment together

Last week in Nursery we enjoyed chasing, catching and popping bubbles. Take a bubble breath and relax together

Bubbles are round circles. Can you draw big circles in the air with your fingers? Can you do it with both hands and then both hands at the same time?
