We are going to be looking at **AWARENESS** and focusing on what happens around us.

It is important that we make time to look at the good things that have happened this week.

What do you notice about where you are and how you feel right now?

Everyday this week choose one good thing that has happened to you  
e.g. I really enjoyed reading my book today

Choose 2 things from the list below that promote your awareness

- Stop and notice** At least once a day, stop and take 5 minutes to just breathe and notice what is around you.
- Walk and notice** The next time you walk anywhere walk slowly and notice what is around you.
- Eat and notice** Eat a meal in silence – notice what you can see, the smell, the sounds and the taste.
- Giving thanks** Choose someone who has helped you and say thanks.

When you take time to notice things and say thanks, what do you feel?

# Awareness:

You are going to explain what AWARENESS is.

Think of some AWARENESS actions you will do this week.

AWARENESS 

This is what I would teach a person from the Planet Sad about AWARENESS as a key to happier living

These are the AWARENESS actions that I will take this week
